

A2. Design a HTML5 web page containing form with text, password, number, range, email, url, file, submit and reset elements which must be styled using CSS3 according to following screenshot.

- **Apply the CSS style exactly same as shown in the above screen shot (with border radius, box shadow and colours).**
- **Submit and Reset buttons must change their colour on mouse hovering.**
- **Name and passwords should not be empty. If empty, provide error message when submit is clicked.**
- **When clicked on submit button email, Profile URLs must be validated for proper input.**
- **Contact number must contain only 10 digits not lesser and not more.**
- **Clicking on Reset button must clear all fields' entry.**
